Riverside, CA 92505

Dear Eric and Staff,

On behalf of myself, Msgr. Loughnane, and the parishioners of St. Denis Catholic Church, we would like to express our appreciation and thanks for a job well done by your company. Your staff worked professionally and in a courteous manner transforming the interior of our church. The restoration of our pews and the new carpet have helped beautify our church in a very positive way.

The project was completed in most satisfactory timeline and manner. Moreover, we were pleased with the prompt service we received during all aspects of our renovation. Special thanks to you for managing the project and making sure it was completed on time and without interfering with special services that came up.

We would recommend your company very highly to other churches considering similar work. If any committee would like to come and view our church we would be more than glad to accommodate them and show the quality of your craftsmanship. It was a pleasure to have you as part of our building and remodeling program.

Best Regards,

Tony Cecola
Director of Administration
