Re: Reupholstering of Our Sanctuary Pews

Dear Eric:

I am writing on behalf of our church to thank you for the work you recently did on our pews. This was the first time our church has done a full update to our pews. So, I was definitely a bit nervous about the whole process.

I am pleased to say that things turned out beautifully. Moreover, they provide very nice, comfortable seating. Thinking back, I do not know how our members sat on those old, worn-out cushions for so long.

You and your staff also did a great job working with us on all aspects of this project. I am especially appreciative of the fact that you took time to take care of a few small details after the project was completed and the checks cut. This demonstrates a real dedication to your product and customers.

I am glad to recommend you to other churches or organizations in need of your services.

Sincerely,

Rev. David H. Choe
Executive Pastor
