Re: Good Samaritan Episcopal Church, San Diego CA

We want to congratulate you on the successful completion of our project in the Worship Center. With only six weeks to complete the project, you were able to remove all of our existing chairs and pews, clean and polish the wood rails, renovate the seating, and reupholster and return the pieces. Installation was completed well within our deadline.

We have been pleased with your personal attention and the quality of labor and materials used. The pieces look "new again," and have generated a very positive response from our congregation.

I am happy to recommend your company to other groups considering such projects.

Sincerely,

Carol Stead Tuggey
