Dear Mr. Voorhees,

I am writing this letter to say thank you for the incredible job your team did in restoring our pews at Orange County First Assembly.

With a seating capacity of over 850 I was amazed that the old dark oak pews could be refinished to a beautiful light oak to match the remodeled interior of our sanctuary! The quality of work was unsurpassed and we are so glad that we chose Worship Interiors Group to refinish the pews at much less than the price of purchasing new ones.

Your team of workers was efficient in removing and reinstalling the pews in a timely manner and we so enjoyed working with them! I also appreciate your personal attention to the project and I thank you for the added bonus of refinishing our teaching pulpit to match the pews at no additional cost.

I would highly recommend your company to any church or organization who is looking to refinish or even purchase new pews or chairs in the future.

Thank you once again for a tremendous job!
